## Projects

### Online Document Manager

Feb 2022 - Present

Hazara University Mansehra

Tools: HTML, CSS, Bootstrap, Javascript, JQUERY, PHP Laravel

I worked on the application Online Document Manager for the institute Hazara University Manshera. That institute internal letter correspondence will occur online that from where to start the letter typing then step by step decision making on the behalf of Particular concern office that at that stage what he can do with the particular request. That is in university support and is responsible to cause the matter then after the cause he will send it to the Assistant Director / Registrar then Assistant will determine whether it is submitted to the Deputy or send back and same will do the Deputy then Additional and Then Director or Registrar. At every stage Director will make correspondence with its own staff and with other Director from the office as well.

### HU Online Private Admissions Portal (BA /BSc, MA /MSc)

Dec 2021 - Jan 2022

Hazara University Mansehra

[admissions.hu.edu.pk/private](https://admissions.hu.edu.pk/private)

Tools: HTML, CSS, Bootstrap, Javascript, JQUERY, PHP Laravel.

An online interface for the applicants to register themselves on the system and do provide the required information for the private BA / BSc, MA /MSc admissions. Challan with autodate will be generated and applicant will submit that fee and upload on the system to get enrolled for the examination. Furthermore on the back end admin panel system will generate roll number slips. Measure the number of students in a particular center of examination. Confidential list will also be generated by the system. Fee structure of private admission will change as the deadline goes away the new fee amount will be auto adjusted.

### HU Online Scholarship Portal

Sep 2021 - Nov 2021

Hazara University Mansehra

[scholarships.hu.edu.pk](https://scholarships.hu.edu.pk)

Tools: HTML, CSS, Bootstrap, Javascript, JQUERY, PHP Laravel

An online portal for internal students of Hazara University Mansehra to apply online for scholarship that came in the university from any where. System is responsible for to verify the student record and send a verification email to the student their login credentials. Further on Student will fill the form in accordance with the requirement of the scholarship form. At the time of undertaking from student about the scholarship he / she will be informed via email the successful submission of the form. Soon after the deadline system will display the list of students who will apply for the scholarship and will tell the students their deficiencies from where their form is complete. Student will then submit a query and concern office will do make the acquire change in the form of student. System will generate the two type of merit one that is claimed by the student and the other one that is set by the scholarship committee. This system will remove the personal like dislike and

totally reduce the human efforts. time efficient secure and pure dependant on merit.

---

## HU CMS

Oct 2020 - Present

Hazara University Mansehra

<https://lms.hu.edu.pk>

Tools: PYTHON, XML, QWEB Odoo MVC

Hazara University Campus Management system is a complete package where all the modules of the university is merged at one point including academics, admissions, registration, recruitment, payslip, examination, hostel management, mess management, Student Portal, Employee Portal Faculty Portal, Candidate / Applicant Portal. As this is such a big system developed by ia software company namely AARSOL. As a programmer I have to make skills in such environment and now i can easily work on this interface like generating reports (XLSX, PDF). built an interface, built a complete Module, Work on frontend interface as well to nourish and make a good look to the system.

---
